

Main Idea

Read carefully. Find the main idea and details.

Busy Bees

Bees help many plants grow. As bees visit flowers, pollen sticks to their bodies. They carry the pollen to other flowers. This helps fruits and seeds form.

1. What is the main idea?

2. Write two supporting details.

3. What sticks to the bees?

4. How do bees help fruit form?

5. Write a one-sentence summary.
