

Angles and Lines

Identify and measure geometric features.

- 1 An angle less than 90 degrees is ____.
☐ acute ☐ right ☐ obtuse

- 2 An angle of 90 degrees is ____.
☐ acute ☐ right ☐ obtuse

- 3 Lines that never meet are ____.
☐ parallel ☐ perpendicular ☐ rays

- 4 Lines meeting at right angles are ____.
☐ parallel ☐ perpendicular ☐ curved

- 5 Classify a 125-degree angle.

- 6 Draw one acute angle.

- 7 Draw a pair of parallel lines.

- 8 Name a real object with a right angle.
