

Area and Perimeter

Solve each measurement problem.

1 Rectangle 12 m by 5 m: area =

2 _____
Rectangle 12 m by 5 m: perimeter =

3 _____
Square side 9 cm: area =

4 _____
Square side 9 cm: perimeter =

5 _____
Area is 48 sq units and width is 6: length =

6 _____
Perimeter is 30 and length is 9: width =

7 _____
Draw two rectangles with area 24.

8 _____
Explain the difference between area and perimeter.
