

Place-Value Power-Up

Grade 1 | Math | Skill: Represent tens and ones

Directions: Show each number with tens and ones. Then use the clues to write the mystery numbers.

1 Break apart each number

$24 = \underline{\quad} \text{ tens } \underline{\quad} \text{ ones}$

$37 = \underline{\quad} \text{ tens } \underline{\quad} \text{ ones}$

$51 = \underline{\quad} \text{ tens } \underline{\quad} \text{ ones}$

$68 = \underline{\quad} \text{ tens } \underline{\quad} \text{ ones}$

$72 = \underline{\quad} \text{ tens } \underline{\quad} \text{ ones}$

$95 = \underline{\quad} \text{ tens } \underline{\quad} \text{ ones}$

2 Solve the mystery numbers

1. 4 tens and 6 ones =

2. 7 tens and 0 ones =

3. The number after 58 =

4. The number before 80 =

3 Explain

How do you know the value of the 6 in 68?

Tens and ones unlock every two-digit number!
