

Decimal Market Challenge

Grade 5 | Math | Skill: Add and subtract decimals to hundredths

Directions: Line up decimal points and solve. Then use the price list to answer the shopping questions.

1 Calculate accurately

1. $3.45 + 2.30 =$

2. $8.00 - 3.26 =$

3. $1.89 + 4.07 =$

4. $9.50 - 2.85 =$

5. $6.25 + 0.75 =$

6. $10.00 - 6.48 =$

2 Shop the market

Notebook **\$2.75**Markers **\$3.40**Folder **\$1.25**

1. How much are a notebook and a folder together?

2. You pay \$10.00 for markers. How much change?

3. Which two items cost exactly \$4.00?

3 Estimate to check

About how much do all three items cost?

Decimal skills make smart shopping possible!
