

Landform Explorer

Compare Earth's natural features.

Grade 3 | Science & Social Studies | Landforms and maps

LEARN

Landforms are natural shapes on Earth.

Elevation, water, and shape help us identify each feature.

1 Match the clue to the landform.

- | | | |
|----------------------------|-------|----------|
| • high land with a peak | _____ | mountain |
| • low land between hills | _____ | valley |
| • land surrounded by water | _____ | island |
| • flat, wide land | _____ | plain |

2 Use the map key to answer.

mountain

lake

plain

Which feature is water? _____ Which is best for wide farm fields? _____

3 Sketch a landscape with two labeled landforms.

Add labels and a simple map key.

Every new skill is a bright beginning!
